

# OUR ORCHID COLLECTION

2022 EDITION

**Our Paradise**

**natural habitat** Fiji is a wonderland of pristine white beaches and crystal clear sparkling waters, so it's no wonder that it's also home to the most nutritious and life-giving coconuts in the world.

The coconut trees in Fiji are more than just a beautiful decoration along our idyllic shores, they are used in every part of Fijian life. They are used for art and craft, weaving, shelter and as an essential source of sustenance. From these trees we harvest the purest virgin coconut oil which is now renowned as one of nature's best ingredients for skincare products.

**the islands of paradise** Fiji has more than 300 islands, but only 110 are inhabited. The largest islands are volcanic and mountainous with rich alluvial soils which prove to be a natural fertilizer for coconut trees. The islands are rich in environmental diversity and ecosystems which all support the plentiful coconut trees.

Our philosophy is to run an environmentally and socially responsible operation. We provide employment to small island communities and minimize our carbon footprint by sustainable farming and harvesting of our natural ingredients, negating the dependence on irrigation and fertilization.

# OUR INGREDIENTS

## NEEM EXTRACTS

---

The antiseptic and anti-bacterial properties of Neem help get rid of dandruff, keeping your scalp healthy and stimulating growth.

## NONI EXTRACTS

---

Noni is one of the best treatments for most types of skin conditions as well as hair. It promotes healthy hair and scalp and contains anti-fungal and anti-bacterial properties.

## TURMERIC EXTRACTS

---

Turmeric is an ingredient that contains many anti oxidants. It is great for aging skin, helps stimulate new cell growth and keeps skin elasticity intact.

## NATURAL SUGAR

---

Raw Sugar is full of glycolic acid, crucial for maintaining healthy skin. Also helps eliminate blemishes, by conditioning and moisturising the skin and protecting from toxins

## NATURAL HONEY

---

Honey is a natural anti- bacterial. Its is a complexion booster and opens up pores making them easy to unclog.

#### **COCONUT OIL**

---

With its anti-oxidant, regenerative, anti-aging and moisturising benefits, Coconut Oil can transform dry or aging skin and add lustre.

#### **ORCHID EXTRACTS**

---

Black & White Orchid Extracts are well known for their reparative and protective properties, moisturizing, antioxidants and reducing the appearance of fine lines.

#### **DILO OIL**

---

Dilo Oil has remarkable regenerative and curative properties. It is able to reach all three layers of the skin, promoting the growth of healthy skin.

#### **LAVENDER OIL**

---

Has a balancing harmonising effect on the skin making it excellent for use in cosmetics where it balances the production of sebum from the glands. It is beneficial for oily or dry skins.

#### **ROSEMARY OIL**

---

Rosemary Oil is used as an anti-aging ingredient and is known to tone and bind loose and sallow skin, It helps to reduce puffiness, resulting in firmer skin and better skin tone.

**Our Paradise**

# The Benefits

Orchids are delicate, exotic and graceful.

These highly decorated flowers are acknowledged as a symbol of beauty, refinement and love. Often utilised in perfumes and fragrance products, the use of orchids has branched out into skin care, hair care, and even colour cosmetics, The demand for this natural ingredient is constantly increasing. They are an idea ingredient for personal care products and have been used in Asia for centuries, for their reparative and protective properties.

Orchids are not just beautiful. They are known to reduce the look of fine lines and wrinkles, acts as an anti-oxidant and as a key ingredient that moisturises, soothes and conditions our skin, leaving a smooth and flawless skintone. It helps women of all ages restore and maintain a bright and radiant complexion.
